AIR FORCE CIVIL ENGINEER SUPPORT AGENCY

02-12

April 2002

## USAF CONUS RESPONSE TASK FORCE (RTF) VIDEO PIN # 614118

### SYNOPSIS:

Headquarters Air Combat Command (ACC), Civil Engineer Readiness Division, in association with Applied Research Associates, Inc., has developed a video titled USAF CONUS (Continental United States) Response Task Force (RTF), PIN # 614118. The video supports the USAF CONUS Response Task Force located at Langley AFB VA. This video is designed to familiarize newly assigned ACC RTF members with RTF notification and deployment procedures. The video will also benefit other response elements that have the potential to respond to a nuclear weapons accident.

### CONTENTS:

This 16-minute video briefly explains the purpose, composition, notifica-

tion, and deployment procedures of the USAF CONUS RTF. The Response Task Force is the designated lead federal agency for response to a significant radiological incident occurring in CONUS, Puerto

Rico, or the Virgin Islands that involves the Department of Defense. The primary reference documents used to develop this video were: HQ ACC Plan 32-1, CONUS Radio-logical Accident/Incident Response and Recovery Plan; DoD 3150.8-M, Nuclear Accident Response Plan; and the Federal Radiological Response Plan.

The video begins with the Initial Response Force responding to a declared radiological accident in conjunction with other lead federal agencies responsible for command and control of radiological accidents.

The next section of the video addresses HQ ACC's role during a significant radiological accident. It covers composition of the RTF and reviews key HQ ACC positions and responsibilities.

The Notification Process section of the video starts with the National Military Command Center determining the lead federal agency for a disaster and outlines how the RTF commander, members, and other agencies are notified.

The video, along with an RTF CD-ROM already in the field, are used to fine-tune local response procedures and directives in support of the Air

Combat Command RTF when it is called upon to respond to an accident.

### ACCESSIBILITY:

Initial distribution has been made. Additional copies of this and other training audiovisual products can be ordered from USAVIC/JVIA ATTN: ASQV-JVIA (USAF) Building #3, 11 Midway Road, Tobyhanna, PA 18466-5102. A point of contact is Ms. Maria DiGenova, DSN 795-6543 or FAX 795-6106. Web site: <http://afishp6.afis.osd.mil/dodimagery/davis/>.
